Brand history

1923 — A company named “Ideal” was first founded in Berlin when radio was still in its infancy. Every unit was carefully tested by technicians and labeled with a seal for quality—the blue dot. It did not take long before customers simply asked for the “bluepoint” products. The blue dot quickly became known as a symbol of outstanding quality.

1932 — The first car radio in the world was launched by Blaupunkt.

1938 — The dot became a trademark as well as the new company name: Blaupunkt.

1959 — The year 1959 saw the delivery of the one millionth car radio.

1971 — Ten million Blaupunkt car radios.

1974 — First car radio with traffic information receiver.

1979 — 25 million Blaupunkt car radios.

1982 — Prototype of first route guidance system.

1989 — World’s first mass production ready traffic navigation system.

1999 — Production of 100 milion Blaupunkt car radios.

2002 — First web-linked navigation system.

2007 — 75 years car radio.

2010 — Blaupunkt TV and Multiband Receivers became the first licensed product categories of the Blaupunkt Global Brand Community.

2012 — The product range of Blaupunkt was expanded to include additional product categories such as tablet computers, mobile navigation, audio and video and air conditioning.

2015 — Blaupunkt have been awarded as the “Brand of the century – German brand standards”.

2016 — The product range of Blaupunkt was expanded to include additional product categories such as small household appliance.

Today — The Blaupunkt Global Brand Community is a growing community of independent brand partners covering almost every category of the consumer lifestyle all over the world.

AIR HUMIDIFIERS

AHS801

Comfortable air humidification is one of the key determinants if it comes to our health and well-being. Dry air, especially during wintertime, can cause headaches, mucosal irritation, sleeping problems, fatigue and susceptibility to infections. The best possible humidity for our health varies between 40-60%. The premium Blaupunkt humidifiers will keep the humidity in the room, up to user preferences. The device is equipped with an ionizer and has aromatherapy function. Negatively ionized air reduces the number of bacteria in the surroundings and neutralizes the harmful effects of electrical equipment on air quality. Aromatherapy perfectly goes with other types of treatments, and the user-selected fragrance will soothe the senses, improve the mood, and became a relaxing moment. Thanks to its quiet operation, the humidifier can also work at night.

PORTABLE GARMENT STEAMER

VSI601

Blaupunkt irons, thanks to the use of the highest quality materials and modern technologies, will meet the requirements of the most demanding users. Ironing with these devices is always fast and effective. Steel or ceramic feet guarantee the safety of pressed fabrics. In the case of steam irons, the ironing process is based not on the temperature of the sole or on its weight, but on the action of water vapor, which softens and penetrates the fibers of the fabric, providing them with a silky smoothness. The units are additionally equipped with functional features such as anti-drop, which prevents water droplets from dripping on the fabric, or anti-calc, which purifies the water from the stone already in the tank, limiting the need for frequent cleaning. Blaupunkt irons are characterized by exceptional ergonomics and a stylish, modern design.
