# Slow juicer

## SJV601

Freshly squeezed juices are a rich source of vitamins and minerals which are necessary to create new cells and thus strengthen the immune system. They provide energy and improve the mood, when drank regularly in a natural way.

The SJV601 slow juicer is fitted with a two-step drill construction and a 400 W motor, allowing up to 90% vegetable and fruit juice yield, without losing the most important things great flavour and vitamins important in a daily diet. The wide, 85 mm diameter input hole complements the operating comfort, eliminating the necessity of cutting ingredients into smaller pieces.

Add a portion of freshness to your diet today!

# Hand blender

## HBD801BK/WH

Hand blenders are the perfect complement to the practical and functional items in every modern kitchen. With their help it is easy to mix vegetables to make a nourishing soup or prepare a refreshing cocktail that is rich in vitamins.

Powerful and quiet at the same time, the 1000 W DC motor and the smooth speed adjustment mechanism of the Blaupunkt HBD801BK/WH blender make grinding hard nuts or chopping hard vegetables possible. The process of blending is made significantly faster by quadruple titanium-coated blades and the special opposite-way profiling of one of the knives improves the catching and mixing of the ingredients.

Preparing meals has never been so enjoyable!

## Coffee maker CMP401BK

Coffee is what most of us start the day with. We like the moments when its intense fragrance fills the kitchen and after drinking a cup of strong espresso the body and mind are stimulated.

Thanks to the good quality of the CMP401 pump espresso machine, preparing coffee at home is easy and enjoyable and comes down to pressing just three buttons. The application of two filters makes it possible to prepare one or two espresso cups simultaneously. The robust Italian pump can reach a pressure of up to 15 bar, thus making the taste indistinguishable from that of coffees served in the best cafés.

# Air fryer

## AFD501

Preparing healthy and nourishing meals for the entire family is an extremely important, everyday activity. We pay special attention to the quality and freshness of the products. We try to eliminate superfluous fat, which has a negative effect on our health and figure and is often used in the preparation process.

To our aid in maintaining a healthy lifestyle comes the AFD501 air fryer, which works on the principle of a hot air vortex. The device has frying, roasting, grilling and reheating functions, giving us a great range of possibilities to prepare a non-fat, tasty menu for our guests. The aluminium fryer chamber and basket are covered with a non-stick DuPont Teflon® coating, which guarantees that the food does not stick to the surface and makes cleaning and maintenance much easier.

Begin eating healthy today!

# Face-cleaning brush

## LFB701

Thorough cleaning plays an important role in the appearance of a woman's face. Performing this activity in a diligent manner makes the skin radiant and allows face cream ingredients to penetrate it easier.

Washing the face with a special, waterproof LFB701 electric brush is much more effective than performing this activity using just the hands. Skin cleansing, peeling and massage, all in one, are functions that every woman will appreciate. After exchanging one of the three brushes for the shaving head cap, the device can serve as an electric shaver as well.

The in-home mini beauty salon is within reach.

## MSR701

Every man knows how important a good razor is in daily care. With a high quality device the morning shaving ceases to be a chore and instead becomes a pleasure.

The MSR701 electric shaver solves the problems often seen after shaving: redness, irritation or itching. Three independent shaving heads adjust to the shape of the face and neck, and the even pressure distribution system ensures optimal shaving. Thanks to the Multi-D Shave technology the user will not experience the problem of facial hair being out the of shaver's reach. The comfort of shaving is complemented by the patented Hi-Precision Cut technology of the cutting heads, which have a thickness of just 0.1 mm.

Take care of your daily shaving in comfort!
